Wimbledon – Tennis Experience

Wimbledon – Club Profile

The Wimbledon Championships is the most prestigious tennis tournament in the world today and is the only Grand Slam still played on grass.

With 675 matches played across the 14 day championship there is an exciting and diverse range of tennis on offer at all times throughout the tournament. The Championships was first played in 1877 and has featured some of the most enthralling matches throughout the history of tennis, having seen many of the greats of the game; Pete Sampras, Venus & Serena Williams, Rafael Nadal, Novak Djokovic, Andy Murray and of course the 'King of Grass' Roger Federer lift the illustrious trophy.

Away from the championships you will experience tennis coaching at an elite tennis academy, participate in round robin tournaments to showcase your skills and of course take the opportunity to take in the many sights that London has to offer; ensuring a memorable experience for all involved!
